

EXPERIENCE

Dust Identity	Lead Front End Engineer
Remote January 2024 - Present	<ul style="list-style-type: none">➤ Rewrote a legacy React Admin application by leveraging Remix, React, Typescript, and Material UI, resulting in enhanced performance and a more intuitive user interface.➤ Replaced a native iOS app with React Native, Typescript, and Expo, delivering a seamless cross-platform experience, modernized app functionality, and increased team velocity by enabling more team members to contribute.
UDisc	Senior Software Engineer - Full Stack
Remote January 2022 - October 2023	<ul style="list-style-type: none">➤ Contributed to the entire software development life cycle in a full-stack JavaScript environment using Remix, TypeScript, React, Node, and Tailwind.➤ Played a pivotal role in migrating the main web application from Meteor.js to Remix. Implemented server side rendering and optimistic UI to enhance performance and user experience.➤ Worked on diverse projects, including building a comprehensive design system with many reusable components, crafting live interactive scoreboards, writing API endpoints for mobile applications, and implementing robust logging, tracing, and analytics solutions.
NorthOne	Senior Software Engineer - Full Stack
Remote June 2021 - January 2022	<ul style="list-style-type: none">➤ Worked in a Serverless environment hosted on AWS. Built and deployed microservices using Node & Typescript Lambdas and DynamoDB.➤ Built core banking features including debit card activation, wire payments, and calculated properties for analytics.
Harry's Inc.	Staff Software Engineer - Front End
New York, NY June 2018 - June 2021	<ul style="list-style-type: none">➤ Built a globally distributed e-commerce application that delivers blazing fast speeds by taking advantage of server-side rendering and extensive edge caching.➤ Developed a scalable event streaming pipeline, using Terraform and AWS services, to consume and transform purchase data before shipping it off to 3rd party platforms.➤ Helped the Digital Design team create a design system that is shared across all of Harry's brands. We systematized a shared CSS grid, tokenized spacing and font sizes, and developed accessible color palettes.➤ Migrated the Flamingo web app from Redux state management and Restful APIs to Apollo-Client and GraphQL.
AT&T	Specialist Applications Developer - Full Stack
Middletown, NJ January 2016 - June 2018	<ul style="list-style-type: none">➤ Worked as a full stack developer on the Sales Express application leveraging Vanilla JS, React, Java Spring, and OracleDB.
